

SOUND FX MODULE

This multipurpose sound module can be used for a variety of applications. You can choose any voice message or sound effect up to 30 seconds long.

The sound is activated by pushing down on top of the module.

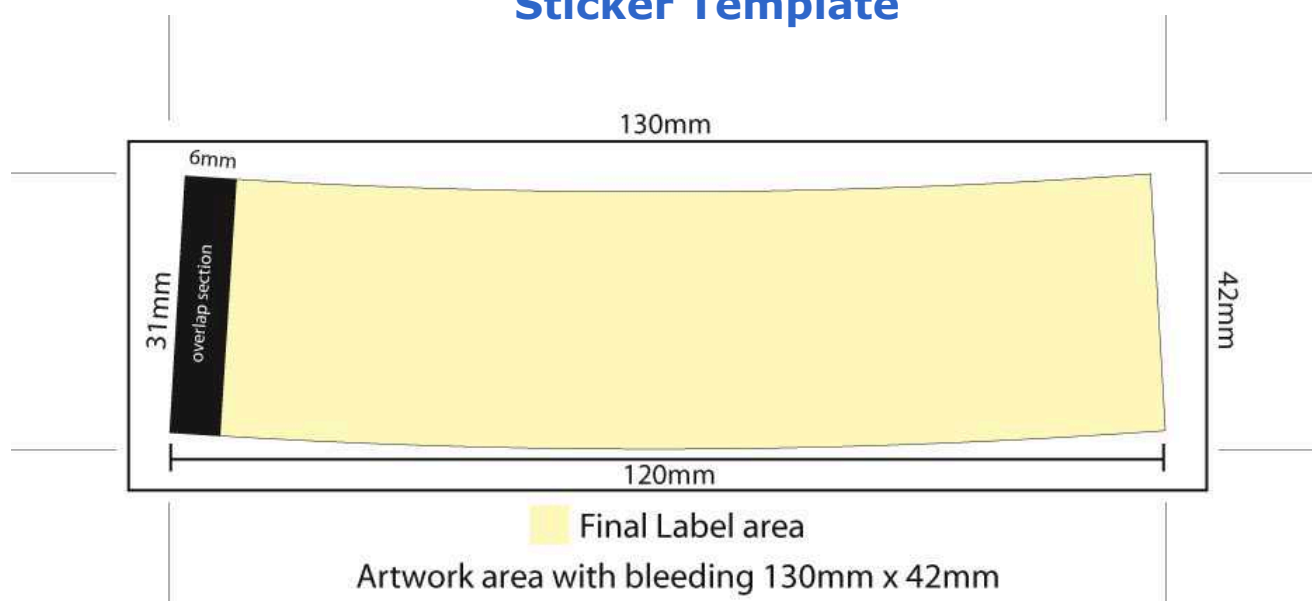

Approx Size: 36mm Diameter and 34mm high.

A four colour artwork sticker can be wrapped around the module and the base colour can be specified for orders over 5,000pcs. A self-adhesive sticker can also be applied to the bottom of the module.

Please call us for a quotation.
