## TALKING PHOTO ALBUMS

Talking Photo Albums bring your memories back to life by adding a new dimension to your photographs. Our new Talking Photo Album will hold 24 6x4" Photographs. The Album will allow you to record a personal 10 second message for each of the 24 photos.

The photos are displayed in 'flip' style and the voice messages are re-recordable. Each individual voice message can be played back at any time, simply with a push of a button. The digital Flash Memory will preserve your recordings forever, (even when you change the batteries!).

*Talking Photo Albums are available in either black or burgundy.*

*Press the play button on each page to hear the message for the photo you're viewing.*

Record each message and keep them forever, or if you decide to change the photos, you can update each message by simply re-recording over the top of the previous one. The Album is powered by two replaceable AAA batteries, which are supplied.

**Perfect for Holiday Snaps,  
Weddings or annual school photographs !**
